Welcome Message

Dear colleagues,

After struggling with Covid for last two years, it gives us immense pleasure to be able to announce the "6th Advanced Laparoscopic Workshop" once again in this beautiful hilly city of Shillong.

Nazareth Hospital, Shillong has been conducting this workshop every two years for more than one decade now. We have been able to maintain a very high standard of live surgery workshop. This workshop helps the budding young surgeons of this region to learn, interact and share their experience with the national level faculty.

Last but not the least it does bring an opportunity to visit this beautiful tiny state Meghalaya, also known as the "Abode of the Clouds". Come join us and enjoy the hospitality of Meghalaya !
